

With your help...

01

Patients can regularly access fresh produce and get nutrition education to support better health and quality of life.

02

The most vulnerable in our communities get aid to cover critical healthcare and prescription costs they struggle to afford.

03

Patients can get transportation to appointments, care kits and access to other community resources when and where they need it most.

... thank God for the food pantry and thanks to the staff being so very nice and welcoming it certainly means a lot to me.

Join us in caring for our communities

Healthier communities benefit us all. At our non-profit Jane Pauley Community Health Center (JPCHC), we see the critical needs across central Indiana every day. That's why the JPCHC Foundation's mission is to provide philanthropic support to enhance healthcare in our communities. And with your help, we'll make an even bigger impact.

*It feels good making a difference by supporting a place that serves our most vulnerable community members.

Support in numbers

As a Federally Qualified Health Center we are specially funded to take Medicaid and uninsured patients and ensure quality care for all.

SUPPORT HEALTHCARE FOR ALL

Over half a million Hoosiers are uninsured. You'll help us make sure the 70% of our patients on Medicaid or uninsured get great care. And, support over 3,200 people with free insurance enrollment.

FIGHT LOCAL HUNGER

One in six Central Indiana residents suffers from food insecurity—that's higher among kids and seniors. You'll help stock our health center food pantries, that have served over 7,500 patient families in their first year open and counting.

ADDRESS WHOLE-PERSON HEALTH

Life and local factors play a bigger role in a person's health than their healthcare alone. You'll help the hundreds of patients who benefit from other local resources we are able to connect them to.

Every bit helps

Patient revenues and subsidies alone cannot provide for the basic, ever-changing needs of our patients. At JPCHC, we aim to change the lives of the hundreds of patients who walk through our doors every day, and you can help. From just a few dollars to thousands, every gift matters.

\$5

Provides a set of hygiene supplies

\$10

Helps give a ride to a care visit

\$20

Covers a co-pay for medication or visit

\$100

Gives new parents a safe carseat

\$500

Stocks a site food pantry for a week
